

Quality Policy

The quality policy of Cabiran is to provide products of the highest possible standards, to satisfy our customers' needs, and fulfill their expectations of quality, safety and reliability.

Cabiran's management defines the quality objectives and places them as part of its goals to satisfy the expectations and needs of its customers.

Cabiran's quality system is in a state of continuous improvement with implementation of the latest quality techniques. The affectivity of the system is measured periodically and improvement actions are taken.

Cabiran commits to solve customer complaints immediately and prevent problems from recurring.

The quality policy of Cabiran is implemented and understood by all its employees and contractors.

Yaron Winogradov – President
