

Environmental Policy

Cabiran is committed to maintain and continuously improve the quality of the factory environment.

Cabiran's management strives to reduce the environmental implications of its operations by Environment Management System which complies with the applicable standards ISO 14001:2015 and requirements. Cabiran has clear objectives and indicators that are periodically examined and reported to its management.

The environmental policy is known, available and accessible to all concerned.

Cabiran's management is dedicated to provide necessary resources to implement the environmental policy to fully comply with requirements that is pledged by the environmental laws and regulations field. Resources are assigned for appropriate equipment, fostering awareness among company employees by training and initiatives with the goal of preventing pollution and improving the environment.

The management is committed to sharing and consulting with employees and managers to promote and improve the Environmental management system.
